- **Styling:** Tailwind CSS, Sass, PostCSS
- **State Management:** Vuex, Pinia, Zustand
- **Backend & Data:** Node.js, Express.js, MongoDB
- **Testing & Tooling:** Storybook, Jest, Vitest, Playwright, Cypress, Sentry, Git
- **Practices:** Frontend Architecture, Design Systems, CI/CD, Accessibility

EXPERIENCE

Appliance.io | Bandung, West Java, Indonesia

Full-time, 7 yrs 7 mos. SaaS platform for appliance retailers.

Product Engineering Lead

Mar 2026 to Present

- Own features end-to-end, turning business requirements into clear user flows and resolving ambiguity before development begins.
- Break work into user stories with clear acceptance criteria, keeping delivery small, predictable, and development-ready.
- Lead product-facing technical discussions and communicate trade-offs across teams.

Frontend Lead

Sep 2022 to Mar 2026

- Led 3 frontend engineers and owned the frontend architecture behind core platform features shared across products.
- Raised code quality and release stability through testing, ESLint, Prettier, and CI/CD while mentoring the team and establishing best practices.
- Drove the migration from Vue 2 + Nuxt to Vue 3 + TypeScript + Vite, improving build performance and developer experience by 50%.

Frontend Developer

Dec 2018 to Aug 2024

- Built responsive, user-friendly features for the core platform and a reusable design system that accelerated delivery by 40%.
- Integrated RESTful APIs and improved mobile and cross-browser support.

- Partnered with product, design, and backend to ship production-ready work and resolve bugs to keep the experience stable.

Trys I Bandung, West Java, Indonesia

Frontend Developer

May 2017 to Nov 2018

- Designed and built website user interfaces focused on visually appealing, user-friendly experiences.
- Translated designs into clean, responsive interfaces.
